**AGE-Related Kits**

MBLI is your source for Advanced Glycation End-products (AGE) which play an important role in diabetes, atherosclerosis, aging, kidney disease and cancer.

- **ELISA kits are well referenced**
- **Quick and Easy Assays: Assay times in as little as 2.5 hours**
- **Sample Types Include: Cell lysate, cell culture, serum, plasma and other biological media**

**S100 Protein ELISA Kits**
- S100A12/EN-RAGE ELISA Kit (cat. no. CY-8058)
- S100A4 ELISA Kit (cat. no. CY-8086)
- S100P ELISA Kit (cat. no. CY-8060)
- NGAL ELISA Kit (cat. no. CY-8070)
- High-sensitivity CRP ELISA Kit (cat. no CY-8071)

**CML ELISA Kits**
- CML Ne-(carboxymethyl) lysine (CY-8066)
- Anti-CML autoantibody ELISA Kit
  - Human (CY-8068)
  - Mouse (CY-8067)
  - Rat (CY-8069)
